HOLLAND.

The following extensive line of Historical Jetons, commemorating the principal events from Chas. I of Spain (V of Germany), 1535, to Chas. II, 1666, is probably the largest ever offered in this country. Each piece is attributed and fully described in a separate envelope and numbered by Dugnoille's excellent work. By their long continued emission, we are inclined to believe that they were made for and freely circulated as money, and passed in the countries now composing the Netherlands and Belgium, also the Northwest Provinces of France, as Double Liards. Many are rare; condition mostly fine. Size above old red Cent or Half Penny.

152 "After 1513," Dugnoille 340, to 1565, Dugnoille 2407. 25

AMERICAN COLONIAL HISTORY

ILLUSTRATED BY

CONTEMPORARY MEDALS

BY THE LATE C. WYLLYS BETTS.

EDITED, WITH NOTES, BY

W. T. R. MARVIN AND LYMAN H. LOW.

The volume contains in all 340 pages, and *describes* 625 *Medals*, illustrated by nearly 200 *engravings of their obverse and reverse dies*. Translations of the Legends are uniformly given, with explanations of the abbreviations, whenever decipherable. The Chapters treat of the Medals belonging to the periods of discovery; of colonization; of intercolonial wars; those of the period from the Peace of Paris to the Revolution; those of the Revolutionary period itself; and finally of those relating to the acknowledgment of the independence of the United States. Separate chapters are also given to the numerous pieces commemorating the exploits of Admiral Vernon (of whom a fine engraving, a reproduction of a rare old contemporary print, forms the frontispiece to the volume), of this series 167 being described, with a table of reverses by which they can be readily identified; and to the Proclamation pieces of Ferdinand VI and Charles III of Spain, with incidental references to those of the other Spanish Kings, so far as they relate to their American possessions. Besides these, the pieces satirizing John Law and his Mississippi scheme; those relating to the conflicts between the Kings of France and England in the New World, and to battles and treaties affecting their colonies on this side of the ocean; the early Dutch Medals bearing on the efforts of the United Provinces to acquire a foot-hold on this continent, and the later ones on the events which made Holland a virtual ally of the struggling colonies during the Revolution; the numerous Medals given to Indian chiefs by France and England; and the interesting series presented to the heroes of the Revolution by Congress, as well as those known as Peace Medals, are all included.

Published at $3.00. We are now closing out our Coin and Medal Department and offer this valuable work at $2.00, post paid.
